RYAN WHITE STDS/HIV-AIDS CORRESPONDENCE COURSE

The questions are written by recognized and dedicated HIV/AIDS educators. We have nearly ten to fifteen educators working on our questions. They are educators who have had years of practical experience and often they are people who have written recognized HIV/AIDS books for youths.

These HIV/AIDS educators not only prepare your questions of studies they also keep them constantly updated. Every year there are changes, both because of syllabus and text. It is vitally important that your courses are kept up to date. That is why this HIV/AIDS Correspondence Course insists on using the very best expertise available in preparing and updating your course of studies.

Secondly, these expertly prepared questions are available for you to study at your own pace, in your own time, in your own home.

At the end of the day you can relax by your fireside and read through your studies. No turning out at night and traveling to evening classes. No taking notes from lectures, everything is written down for you to study at will and revise as often as you like.

No being held back because of slower students in the class. No being rushed too quickly ahead because a lecturer has to keep up with a timetable.

You don't have to take a chance on how good you are. You can rest assured that your interests are in our interest and we make the best talent available to you to achieve your aim.
